

- 1.1_Models of the standard pump
- 1.2_Models pressure & vacuum
- 1.3_OEM series of the air pump

Alita linear air pumps are an effective source of compressed air. They are designed to have a low noise level and low energy consumption. Air circulation is created by the vibrating movement of flexible membranes (1), placed in covers (2) with non-return valves (3). The permanent magnet (4), on which the membranes are anchored, is moved by an alternating magnetic field with a generated electromagnetic coil pair (5). The entire process functions without mechanical friction and a low noise level.

Advantages:

- > smooth air flow
- > low noise level and vibrations
- > high efficiency
- > low energy consumption
- > long service life
- > oil-free model
- > compact and light design
- > simple maintenance
- > heat protection
- > indoor and outdoor use
- > reliable interrupted and continuous operation
- > safety design
- > automatic membrane defect indication

1.1 **Models of the standard pump**

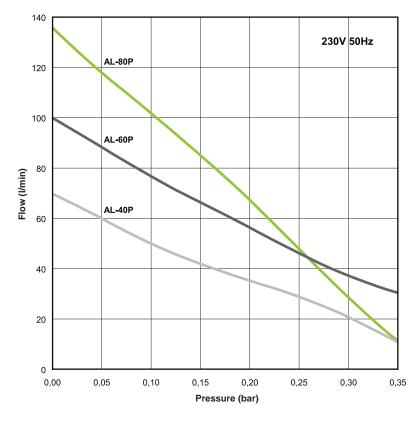

1.1 **Models of the standard pump**

Models of the standard pump AL-40, AL-60, AL-80

Model	AL-40	AL-60	AL-80
Max. rated input power	48 W	72 W	86 W
Noisiness	36 dB	38 dB	39 dB
Weight	5.6 kg	6.5 kg	6.5 kg
Output ø	18 mm		
Max. rated pressure	220 mbar		
Rated input power (Max. rated pressure)	40 W	50 W	52 W
Voltage, freq	230V 50Hz		
Cover IP	IP54		
Dimension L x W x H	205 mm x 173 mm x 202 mm		

The single phase machines are designed with a \pm 1-10 % tolerance. Information presented is based on test results from nominal units. Specifications are subject to change without notice.

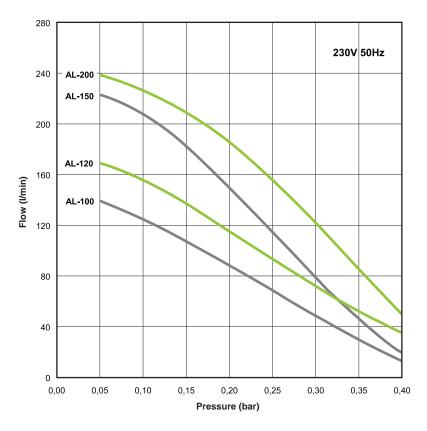

Štandardné modely AL-100, AL-120, AL-150, AL- 200

Model	AL-100	AL-120	AL-150	AL-200
Max. rated input power	120 W	124 W	160 W	261 W
Noisiness	41 dB	42 dB	44 dB	45 dB
Weight	8.3 kg	8.3 kg	10.1 kg	10.1 kg
Output ø	18 mm 26 mm			mm
Max. rated pressure	260 mbar			
Rated input power (Max. rated pressure)	78 W	97 W	110 W	125 W
Voltage, freq	230V 50Hz			
Cover IP	IP54			
Dimension L x W x H	248 mm x 205 mm x 245 mm			

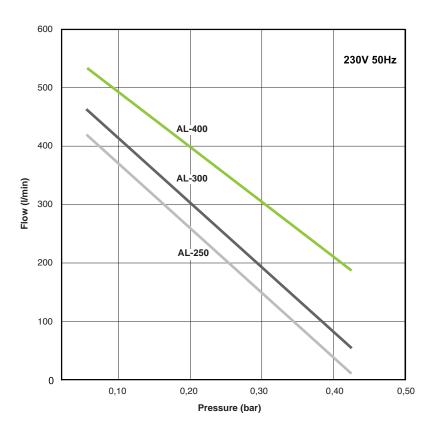

The single phase machines are designed with a +/- 10% tolerance. Information presented is based on test results from nominal units. Specifications are subject to change without notice.

Models of the standard pump AL-250, AL-300, AL-400

Model	AL-250	AL-300	AL-400
Max. rated input power	240 W	290 W	440 W
Noisiness	46 dB	47 dB	49 dB
Weight	18,8 kg	22,1 kg	22,2 kg
Output ø	30 mm		
Max. rated pressure	260 mbar		
Voltage, freq	230V 50Hz		
Cover IP	IP54		
Dimension L x W x H	420 mm x 248 mm x 262 mm		

The single phase machines are designed with a \pm 1-10 % tolerance. Information presented is based on test results from nominal units. Specifications are subject to change without notice.

1.2 Models pressure & vacuum

Models pressure AL-6A, AL-15A

Models pressure & vacuum AL-6SA, AL-15SA, AL-30MSA

Model	AL-6A/ AL-6SA	AL-15A/ AL-15SA	AL-30M/ AL-30MSA
Current	0,1 A	0,2 A	0,25 A
Power	13 W	26 W	35 W
Noisiness	27 dB	29 dB	35 dB
Weight	2,4 kg	2,4 kg	3,7 kg
Max. rated pressure	100	200 mbar	
Dimension L x W x H	150 mm x 130 mm x 111 mm		
Voltage, freq	230V 50Hz		
Cover IP	IP54		

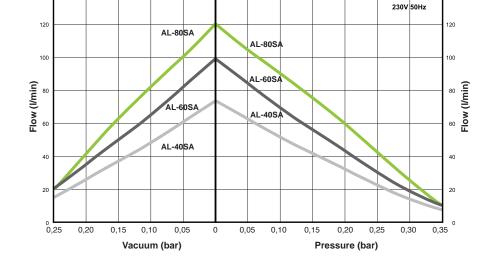

Information presented is based on test results from nominal units. Specifications are subject to change without notice.

Models pressure & vacuum AL-40SA, AL-60SA, AL-80SA

140

Model	AL-40SA	AL-60SA	AL-80SA
Max. rated input power	48 W	72 W	86 W
Noisiness	36 dB	38 dB	39 dB
Weight	5.6 kg	6.5 kg	6.5 kg
Output ø	1/4" FPT		
Max. rated pressure	210 mbar		
Max. rated vacuum	150 mbar		
Rated input power (Max. rated pressure)	40 W	50 W	52 W
Voltage, freq	230V 50Hz		
Cover IP	IP54		
Dimension L x W x H	205 mm x 173 mm x 202 mm		

Information presented is based on test results from nominal units. Specifications are subject to change without notice.

OEM series of the air pump

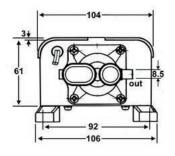

ALITA_Linear air pumps

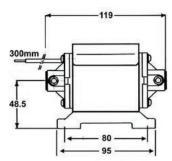

OEM series of the air pump

In addition to a wide range of standard pump models that can be utilized off the shelf, we also offer OEM series of the linear air pumps which are customized for original equipment applications in the various areas of industry.
